LOMOND, ALBERTA, FRIDAY, SEPT. 5. 1919

\$1.00 PER YEAR.

NEW NORMAL COURSE INSTITUTE.

On July first the reciprocal arrangement between the four western provinces for the recognition of teacher's certificates came into effect. Now teachers trained in other provinces receive similar standing in the others. This has resulted in a getting together of these responsible for the teacher-training policies of the various provinces. In a general way standardization has taken place in the length of the training required for the various certificates, the content of the courses and the basis of admission. Hereafter, in all the provinces the period of training will be eight months.

For a long time it has been recognized that the four months training was entirely inadequate. The course was crowded and hurried and it was possible for very immature young people to get the certificate to teach and still be very indifferently equipped. The length

ened course will mean a more complete equipment. In addition to more detailed courses in the various subjects to be taught there will be greater opportunity for demonstrations by the Normal and Practice Staffs, as well as for more practice teaching on the part of the teachers in training. The longer course will cost more money. This will mean that young men and women will go into the work of teaching seriously and with the idea of devoting several years of service. The larger period of training cannot but result in better teachers and a more stable profession.

There are two Normal School in Alberta—one at Camrose and the other at Calgary. Both have good buildings and are well staffed the courses offered are broadly cultural as well as vocational, and are well worth while aside altogether from the certificates to which they lead. It is estimated that the expense for the additional four months will increase the cost one-half, that is the total expense, exclusive of clothing will run from \$375 to \$450.

Some people shoot ducks, some steal them from successful hunters and others have ducks thrust upon them. Most of the local sports claim to have brought in large bags of game, but for actual proof of the pudding we are not in a position to vouch. W. M. Armstrong and Gus the barber drove up to the Adams ranch, north of Bassano and they claim to have downed something over one hundred and forty on the trip. Swain's gun was no good and Duke's new moustache flickered around the sights of his gun. Tommy thinks they have plenty of water to start irrigating around Lake McGregor and St. John can't understand why a man shoot eight dollars worth of ammunition for eight cents worth of ducks, and board himself. All these fellows report the ducks plentiful and well-behaved.

o o o

Mr. and Mrs. George Milner were guests at the Bell farm a few days last week. Mr. Milner was recently demobilized, and before going overseas farmed below Travers.

NOTES

The Lomond Consolidated Schools opened as per schedule with a very good initial attendance. The intermediate room is filled to capacity now and the other two rooms have little space to spare. Misses Atkin, Kerr, and Stewart are in charge.

It is very evident to those concerned that if consolidation is to continue there must be additional buildings provided. And above this there must be an additional levy to provide for the increased cost of hauling the children to school. The tenders received this year demand several hundred dollars more this year than before and we never have seen anyone make much money out of it yet. It will necessitate more routes and shorter hauls, for the children cannot do justice to their studies and be on the road as long as some of the routes now require.

All last year the schools run without an inspection. Whether we are to accept this as a compliment to the staff or a slam at the inspector we are at a loss to advise. Perhaps in dry years we do not need attention. We might further add that this is quite in keeping with the courtesy received from the Department of Education. The Board has unanswered communications at Edmonton aged several months.

THE PRES advocates a policy of re-organization with replacing the country schools, not necessarily as previously located, and a school in town with high school accommodation. Other than this in will be necessary to change the summer holidays to one month and

close the school during the colder weather in the winter. Under the present circumstances the children undergo actual suffering occasioned by the long rides in the cold.

o o o

The cars and wagons of the Manitoba and Saskatchewan Bible Society are travelling to Edmonton to hold a General Conference in September. On their way they will be holding meetings in schoolhouses. It is also proposed to visit schoolhouse for a wide circuit around Edmonton and to return by a southern route to Winnipeg.

o o o

These pleasant showers are great for the spuds and grass. It sort of eases up on the price of hay for the coming winter.

MUNICIPAL AFFAIRS STILL IN A TANGLE

There is a good deal of speculation over the results obtained, through the efforts of the rate-payers' investigation committee appointed last winter. As it now stands the people are without an organization, though we are unofficially informed that Mr. Fidler, the municipal inspector, is recommending that Councillor Barnett be appointed official administrator till the regular time for a new election. The municipal credit is now demoralized. A number have funds coming for work on the roads but no payments can be made till the tangle is straightened out.

While THE PRESS does not in any way condone the irregularities, we feel that the present proceedings are unfair insofar as they humiliate the present office holders but in no way seek to prosecute the serious offenders who were cute enough to vacate while the air was clear.

Again we would reiterate that the results have not justified the means of their attainment.

After a couple of years of inactivity the Department of

Finance has awakened to the fact that the public accepts the past administration of the Income Tax Act as a scandal and is now instituting belated prosecutions. Perhaps the government is bidding for re-election.

While J. R. McKay won the horse race from us quite easily last Saturday another race is being arranged for the 20th. It was intended to run tomorrow night but circumstances have arisen to call it off. This event has caused quite a little sporting interest. Even R. H. Dobson wants to get into the game. He challenges McKay to four mile walking race, wiping off the sweat to disqualify contestants. Enough notice will be given for the next race to call in any others who care to put on exhibitions of matched racing.
